

Course No 2.

Fairdeal Conducted IMO Accredited Oil Spill Response Courses to Governmental Iraqi Environmental Engineers from the Oil Sector.

For a second time in a row, the Oil Spill Response Centre of Fairdeal Marine Services has organised an accredited 3 days Oil Spill Training Course complying with IMO Operational Level Course at Fujairah on 20th to 22nd of October 2023.

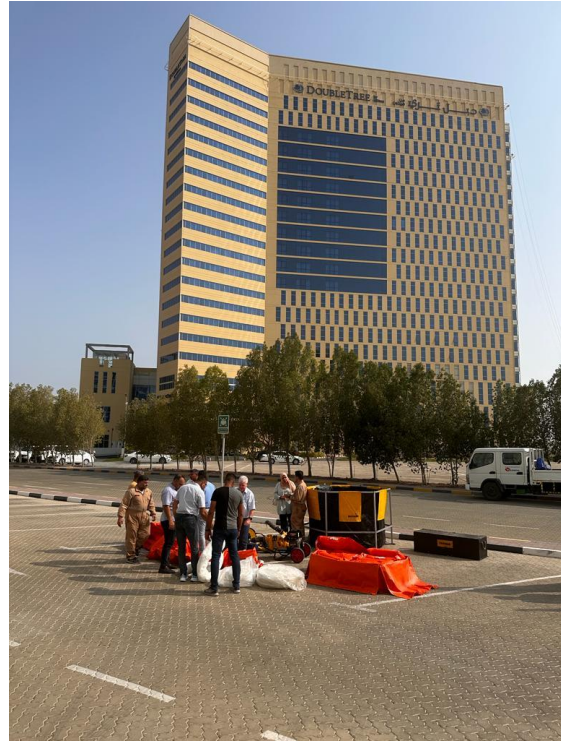

Course conducted to the second group of attendees from the Governmental Iraqi Environmental Engineers from Oil Sector.

Likewise to the previous session, the course objective was focused on the oil spill operational level such as on the response techniques at sea and on the shoreline, waste management and post - response operations.
